Experience

IT Support Specialist, Ample Infotech - India 08/2019 - 04/2021

- Responsible for providing first-level technical support and resolving these network issues efficiently.
- Developed a comprehensive troubleshooting guide for common network problems and implemented a remote diagnostic tool to quickly identify the root cause of connectivity issues.
- Resulted in a 20% reduction in average ticket resolution time and a 15% improvement in first-call resolution rates, significantly improving employee productivity. I also resolved an average of 90% of issues on the first call.

Education

Postgraduate Diploma in **Big Data Solution Architecture** Kitchener, Canada
Conestoga College 01/2023 - 08/2023

Postgraduate Diploma in **Virtualization and Cloud Computing** Waterloo, Canada
Conestoga College 05/2022 - 12/2022

Bachelor of Engineering in **Information Technology** Ahmedabad, India
Gujarat Technological University 08/2015 - 05/2019

Certification

AWS Certified Cloud Practitioner CLF-C02

Projects

Static Website Hosting on AWS 10/2024
<https://hardikaws.online/>

- Deployed a static website on AWS S3 to showcase my Cloud Resumé
- Leveraged Amazon CloudFront to improve website performance and reduce latency for global users, resulting in a 30% decrease in page load times.
- Implemented HTTPS encryption using AWS Certificate Manager to ensure secure communication and protect user data.
- Integrated with GoDaddy and AWS Route 53 for custom domain management and DNS routing.

Serverless Web Application Developer 10/2024
<https://medium.com/@cloud.hardikrathod/how-to-build-a-serverless-web-application-using-aws-efeb164d6962>

- Developed a serverless web application using AWS S3, DynamoDB, Lambda, and API Gateway to enable users to submit and track requests.
- Implemented a serverless architecture to achieve scalability and cost-effectiveness, resulting in a 20% reduction in infrastructure costs compared to a traditional server-based approach.
- Designed and implemented a secure API using API Gateway to protect backend resources and ensure data integrity.
